awesome, killer feels threatening. It's fun and cheap, and it runs at a good fps.. Talked to Jason  
Bought Gift for His Mother  
Didnt Wanted to Marry him.  
He Never Talks to me Again

Would buy gift again 9/11. I will smash everyone's head who is opposed to Nene!  
?????????????????. RECOMMENDED, MY FRIEND.. The game is fun with good graphics but its too short for the price. Its basicly a demo.

Hopefully they will add more content.. Its pretty cool, but i wish there was a few more cars. Great mod, adds a different element to the game. WW1 CoH is good.. 1. Seizure clicking  
2. 100% unlocked

Only recommand if you wanna waste your life

I am writing this review after "only" 50 minutes of playtime. "Only", because this is a very fast game, where levels should be finished in under 10 seconds sometimes. So 50 minutes is a loong time for playing this game and feels like 5 hours or so.

Whether you are looking for a few minutes of distraction or want to try a speedrun after mastering all levels forth and back, this game is well worth its small price.

Pro:

- Each level is more or less easy to win, but hard to nearly impossible to master
- I like the school grade measuring system for level success. Makes you want to try it "only one more time" ;-)
- the retro-modern, cathode-ray tube, 8-Bit, pseudo-3D graphics
- Support! The game creator\programmer was able to help me with a specific technical issue within hours. Double plus LIKE!

Neutral:

- the storyline. Not every game must have one. This one fits into the overall game look and feel, but I would not have missed it if it did not have one.

Cons:

- when playing for a while, the music may get a bit monotonous. This is my personal experience, which may not be applicable to other players.

[removed]Cons: - possible issues with screen resolution in full screen mode. Unity does not remember the set screen resolution. This is a Unity platform specific flaw on some systems (like mine, unfortunately) for which the programmer cannot be blamed for. Windowed mode works fine, so this is no real issue.

[Edit Mar 24th: solved. The game creator reactivated the Unity config screen which allows to set fullscreen in the correct resolution. Again: double plus LIKE!]. This title looks like it will be very good! Developer listens to what you say which is great unlike many others. Almost didn't buy it because the last small developer I purchased from (Ghost Machine) was a horrible experience that left a bad taste in my mouth. I am sure glad I gave them the benefit of the doubt. In 2019m looking forward to the finished product.. You get what you pay for. Spin the wheels, get the anime ladies.

[The most fun I had was trying to track down the ways to restore the game to its \*\*\\*\\*full potential\\*\\*\*\*](#)

[\*\*PS: Coincidentally, i had just played the previous game from this publisher, who apparently already got wiped under a previous name. So if you're the completionist sort, you may want buy this game before it mysteriously disappears from Steam again.\*\*](#)

[PPS: Does anyone even read reviews for this kinda game? I'd imagine not. Anyway, enjoy.. 10/10 add-on!. First time I play this game about 6 month ago, and it was good. But now it's much better!](#)

[It's an old-fashioned game with a non-stop action.](#)

[Graphics, music, sound effects - everything is nice. Good storyline. Interesting perks in RPG mode.](#)

[I like it! This game is for true ninjas :\). A decent Lovecraftian horror romp, that does not overstay its welcome. Atmosphere and ambience are nice for the most part. The occasional muddy texture or ugly object stick out a little, but the solid lighting and ambient sound keeps you immersed well enough considering this is not a big budget affair.](#)

[The story is compelling enough to keep you marching onwards to the end titles. Worth a purchase for fans of Lovecraftian adventures or psychological horror in general. Those looking for a high octane action affair would likely find disappointment, though.](#)
